General product specification		
Description	VUL/SK24/12 CR DIN	
	Closure fitting for tin plate containers, two piece, for 24mm DIN-piercing,	
	PE made. Base with tamper evidence tear-off seal and universal insertion	
	edge. Screw cap ergonomic shaped, with bore seal.	
<p>Child resistance is in accordance with Standard ISO 8317 (2003). The distributor/bottler of the packaging is responsible for guaranteeing the function of child resistance for the total packaging (container, filling material, closure) over the corresponding life span. Mus Verpakkingen BV points out explicitly that aggressive filling materials can affect the function of child resistance of the closure negatively. Child resistance function has to be examined by the distributor/bottler, before the total packaging is launched to the market.</p>
